

# Investors Edge Worldwide Equity Model

As of 2025/12/31

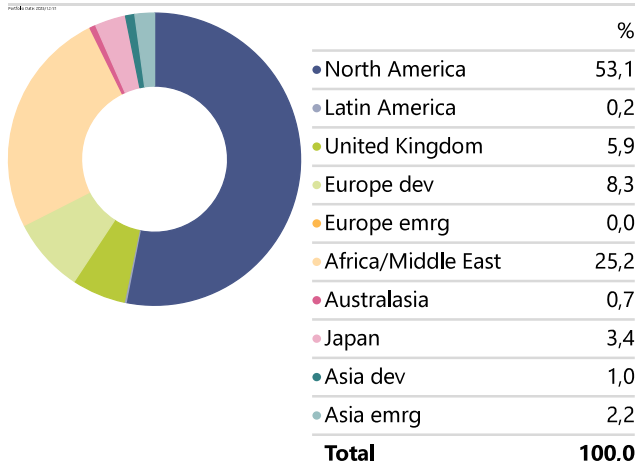

## Investment Strategy

The Investors Edge Worldwide Equity Model Portfolio aims to provide investors with a high-risk, long-term total return through worldwide, flexible assets actively invested in mostly global equities.

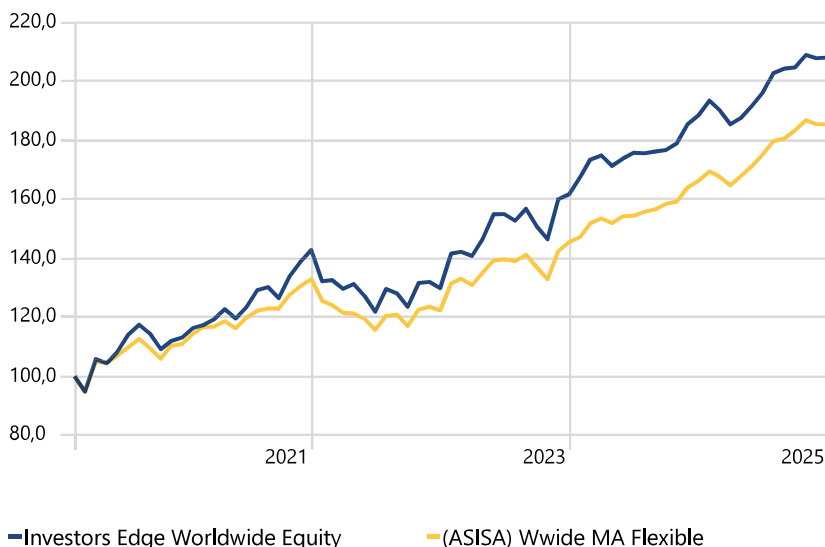

This Model is a Rand-denominated worldwide portfolio that offers flexibility to invest in equities and property globally, as well as in South Africa. The objective is to hold the largest component in international stocks over the long term. This will result in the assets held being affected by global markets and currency risk.
